Volunteer with the Toronto Foundation for Student Success

Share your financial expertise and
lead the future generation towards success!

The Toronto Foundation for Student Success (TFSS):

The [TFSS](#) is an independent, registered charity that provides food, medical care, emergency funds and free after-school programs to children in need. They are currently looking for CIA volunteers to lend their financial expertise and a few hours of their time to help develop a financial wellness activity for kids aged 8-14 as part of its 2024 Wellness Walk taking place in June 2024. The goal of the activity is to help children from underserved communities learn about budgets, coupons and other related financial topics.

Desired area(s) of practice: Any

Time commitment: 3 hours per session

Experience level: Any

Location: Toronto (in person)

Current volunteer opportunity:

2024 Wellness Walk – beyond 3:30 after-school program

- Volunteers will help develop a 5-7-minute-long fun and interactive “financial wellness activity” for children aged 8-14. The activity can be a game, conversation, quiz or any other fun format.

Key benefits of volunteering:

- Enhance your leadership, mentorship, planning and communication skills.
- Network with other like-minded volunteers.
- Gain a deeper understanding of cultural and socio-economic diversity affecting your communities.

The impact of financial education extends beyond the immediate volunteering experience. By equipping children with financial literacy, volunteers contribute to breaking the cycle of poverty and setting the stage for long-term economic stability within the community.
